Ethical Universe

The Sub-Fund can only invest in investments that satisfy the ethical selection approach defined in the Ethical Policy of the Sub-Fund. The Sub-Fund promotes environmental, social and governance characteristics by selecting securities from an ethical universe.

The ethical universe is monitored by the Investment Manager and updated regularly, at least yearly, to ensure compliance with the ethical mandate of the Sub-Fund. For inclusion in the ethical universe, potential investments undergo screening against negative filtering criteria and are then analysed against environmental, social and governance criteria. This analysis is conducted using a blend of third-party data and the Investment Manager's own research from reputable monitors. Ongoing monitoring ensures continued adherence to the ethical principles outlined in the Ethical Policy. Should an organisation in which the Fund has invested deviate from the Fund's ethical principles, the Investment Manager will develop a strategy for divestment in an appropriate way, within a reasonable timeframe, not exceeding six months from discovery. Details of the Ethical Policy adopted by the Investment Manager in the management of the assets of the Sub-Fund shall be provided to investors prior to investing in the Sub-Fund and thereafter upon request. The most recent version of the Ethical Policy adopted by the Investment Manager is also available on the website of the Company [www.apsfunds.com.mt].

Any material changes to the Ethical Policy adopted by the Investment Manager can only be undertaken by approval from the Board of Directors, upon recommendation of the Investment Manager. All Shareholders in the Sub-Fund will be notified of any material changes in the Ethical Policy.

Therefore, the "do no significant harm" principle does not necessarily apply to any of the investments of this Sub-Fund. Further information is set out in the Pre-Contractual Disclosure in Appendix I to this Offering Supplement.

From time to time, the Investment Manager may take currency positions where it sees potential value, relative to the base currency.

Financial Derivative Instruments

The Fund may invest in financial derivative instruments (FDIs) for the purposes of Efficient Portfolio Management (EPM), including hedging purposes.

Permitted EPM transactions (excluding stock lending transactions) are transactions in FDIs (as described in the Prospectus) dealt in or traded on an Eligible Derivatives Market; off-exchange futures, options, swaps or forward currency transactions. For example, the Sub-Fund may use forward currency transactions to hedge foreign exchange and interest rate risk. Any forward transactions must be with an Approved Counterparty (eligible institutions, money market institutions or other counterparties with which a UCITS may contract etc.) and in accordance with the requirements of the Malta Financial Services Authority. There is no limit on the amount of the assets which may be used for EPM.

The Offering

Share Offer

This Offering Supplement is supplemental to, and must be read in conjunction with, the Prospectus issued by the Company.

The Offering Supplement constitutes an offer of Investor Shares in the Sub-Fund which is comprised of three (3) classes of Investor Shares.

The offering of the Investor Shares at the Initial Offering Price commences on 14th October 2024 and will end on the Closing Date.

During the Offering Period which commenced on the first Business Day after the Closing Date and shall remain open until such time as the Directors determine otherwise, the offer is for Investor Shares at the Subscription Price applicable on the relevant Subscription Day.

Purchase, Transfer and Exchange of Shares

Subscriptions may be made in the form of lump sum investment or via the monthly investment plan.

Lump Sum Investments

Investor Shares can be purchased at the prevailing Subscription Price, by submission to the Company at the office of the Administrator of the relevant and properly completed Subscription Application prior to the cut off time for receipt of applications for the relevant Share Class.

If the Subscription Application is not received as required, the Subscription Application may be rejected or held over until the next Subscription Day at the discretion of the Company. In the event that an application is rejected, any application monies received will be returned without interest by telegraphic transfer to the remitting bank at the discretion of the Company at the risk and expense of the Subscriber. Subject to the satisfaction of the requirements set out above, Investor Shares shall be issued to successful Subscribers on the relevant Subscription Day.

No application will be capable of withdrawal after acceptance by the Administrator, unless such withdrawal is approved by the Directors acting in their absolute discretion. In such circumstances, the Company may charge the Subscriber for any expense incurred by the Company and for any loss to the Sub-Fund arising out of such withdrawal.

The Administrator will generally issue written confirmation of ownership to a Shareholder within seven (7) Business Days after the applicable Subscription Day.

Payment should be effected as described in the Subscription Application which are available from the Investment Manager and/ or the Administrator. At the Company's discretion, payments may be accepted other than in cash. All payments in cash for Investor Shares must be made in the base currency of that class of Investor Shares and be received in Cleared Funds in any event before the Settlement Date. Any applicable bank charges will be borne by the Subscriber.

If payment in full in Cleared Funds in respect of an application has not been received by the relevant Settlement Date or in the event of non-clearance, any allotment or issue of Shares made in respect of such application shall be cancelled and the Directors may charge the Subscriber for any expense incurred by the Company and for any loss to the Sub-Fund arising out of such non-receipt or non-clearance. Monies returned will be at the risk and expense of the Subscriber.

Full details of the application and subscription process appear in the Section of the Prospectus entitled **"Purchase, Exchange and Transfer of Shares"**.

A Subscription Application and other related documentation will be provided upon request by the Administrator, the Investment Manager or by an Authorised Distributor.

Monthly Investment Plan

A monthly investment plan can be established in respect of the Class A Accumulator Shares by completing the relevant section of the Subscription Application and is made through regular monthly subscriptions. The Investor should arrange for a standing order from his bank account in favour of the Company. The subscription amount should be received by the Company by not later than the applicable Settlement Date, as set out under the 'Key Features' – 'Deadlines' above. All payments in cash for Investor Shares must be made in the base currency of that class of Investor Shares and be received in Cleared Funds in any event before the Settlement Date. Any applicable bank charges will be borne by the Subscriber. Investor Shares will be issued on the relevant Monthly Subscription Day.

If payment in full in Cleared Funds in respect of an application has not been received by the relevant Settlement Date or in the event of non-clearance, any allotment or issue of Shares made in respect of such application shall be cancelled and the Directors may charge the Subscriber for any expense incurred by the Company and for any loss to the Sub-Fund arising out of such non-receipt or non-clearance. Monies returned will be at the risk and expense of the Subscriber.

In the case of subscriptions via the monthly investment plan, written confirmation of ownership will not be issued but investors will be sent every six months, as at 30 June and 31 December, a statement giving full details of the transactions made during the previous six-month period together with a valuation of such holdings as at these dates.

Redemption of Shares

Investors are directed to the Prospectus where the procedures relating to the Redemption of Investor Shares and the conditions applicable thereto are outlined.

Investor Shares can be redeemed at the prevailing Redemption Price, by submission to the Company at the office of the Administrator of the relevant and properly completed Redemption Notice before the Redemption Notice Deadline. Redemption requests received after the cut off time for receipt of redemption requests will be processed on the following Redemption Day.

In terms of the Memorandum and Articles, redemption requests and/or exchange requests are, once made, irrevocable. A Redemption Notice if accepted by the Company will be effective as at the applicable Redemption Day. Investor Shares shall be cancelled on the relevant Redemption Day and redemption requests will generally be settled within fourteen (14) Business Days from the relevant Redemption Day.

Full details of the redemption process appear in the Section of the Prospectus entitled "**Redemption of Shares**".

A Redemption Notice and other related documentation will be provided upon request by the Administrator, the Investment Manager or by an Authorised Distributor.

Deferral of Redemption

The Directors may in their exclusive discretion limit the total amount of redemptions effected on any Redemption Day to 10% of the outstanding Investor Shares in the Sub-Fund on that day (in each case before processing request for the issue of the Investor Shares or requests for redemptions of such Investor Shares for such Redemption Day). In such circumstances the Company or its authorised agent may scale down pro rata the number of Investor Shares to be redeemed in response to each request for redemption to the extent necessary to ensure that the foregoing limit is not exceeded and shall carry forward the balance for redemption as at the next Redemption Day and so on to each succeeding Redemption Day until each request has been complied with in full. Requests for redemption carried forward from an earlier Redemption Day shall have priority over later requests.

Risk Factors

Investors are directed to the Prospectus where the risk factors applicable to investment in shares of the Company, including in Investor Shares, are explained. In addition to the risk factors set out in the Prospectus, investors should note the additional risk factor outlined below:

Regulatory Regime

The securities of issuers may be subject to a lower level of regulation than securities issued in more developed markets and may not be subject to the same high level reporting requirements as in countries with more developed markets and regulatory schemes. Moreover, supervision of stock exchanges, securities brokers and issuers of securities may be less stringent than in countries with a more developed market.

Smaller Companies

The companies in which the Sub-Fund will invest may include small companies, and some of the listed companies in which the Sub-Fund invests may have low market capitalisations. Investment in the securities of smaller companies can involve greater risks than is customarily associated with investment in larger, more established companies. In particular, smaller companies often have limited product lines, markets or financial resources and may be dependent for their management on a small number of key individuals. In addition, the market for stock in smaller listed companies is often less liquid than that for stock in larger listed companies, bringing with it potential difficulties in acquiring, valuing and disposing of such stock.

Investment in other Collective Investment Schemes

The Sub-Fund may invest in other CIS. Such investment exposes the Sub-Fund to risks related to the investments held by the underlying CIS in its portfolio apart from risks related to the holding of the units/ shares of the CIS. The Investment Manager will seek to invest in underlying CIS which offer units/ shares that may be redeemed within a reasonable timeframe, however there can be no assurance that the liquidity of the underlying CIS will always be sufficient to meet redemption requests. Any lack of liquidity may affect the liquidity of the Shares of the Sub-Fund. Also, as an investor in the underlying CIS, the Sub-Fund will bear, along with the other investors, its portion of the expenses of such CIS, including the management, performance and/or other fees, as applicable. These fees will be in addition to the investment management fees and other expenses which the Sub-Fund bears directly with its own operations. The Sub-Fund may also be charged a subscription and/ or redemption fees on account of the Sub-Fund's investment in the underlying CIS. While the Investment Manager seeks to invest in CIS that are consistent with the objectives of the Sub-Fund, investment decisions are made independently at the level of the underlying CIS and solely subject to the investment strategy and/ or restrictions applicable to those underlying CIS. This may imply that the underlying CIS may be leveraged either by using FDIs or through borrowing. The use of leverage increases the volatility of the value of the underlying CIS' portfolio (and accordingly the value of the units/ shares of the underlying CIS) and thus the risk of losing capital. There is no guarantee that the selection of the underlying CIS will result in diversification of investment strategies (or holdings) and that the positions taken by the underlying CIS will always be consistent.

Equity Risk

Investment in equities run the risk that the market prices of investments will decline. The market prices of equities may decline for reasons that directly relate to the issuing company, such as poor management performance or reduced demand for its goods or services. They also may decline due to factors that affect a particular industry, such as a decline in demand, labour or raw material shortages, or increased production costs. In addition, market prices may decline as a result of general market conditions not specifically related to a company or industry, such as real or perceived adverse economic conditions, changes in the general outlook for corporate earnings, changes in interest or currency rates, or adverse investor sentiment generally. Equities generally have significant price volatility and the market prices of equities can decline in a rapid or unpredictable manner.

Equity-Related Securities

The Sub-Fund may invest in equity-related securities. These are generally traded on an exchange and are thus subject to general market conditions, such as liquidity and trading appetite in respect of the said instruments. There is also the risk that investments in these instruments may be adversely affected by changes in the inflationary, political and exchange rate conditions of the underlying assets.

Investments in High Yield Bonds

The Sub-Fund may be investing in high yield bonds, which be more volatile than higher-rated bonds of similar maturity. These bonds may also be subject to greater levels of credit or default risk. Additionally, high yield bonds may be less liquid and more difficult to value or sell at an advantageous time or price.

Ethical Investments

The Sub-Fund applies an Ethical Policy for investment which may mean that the Sub-Fund may be unable to invest in instruments issued by certain sovereigns, corporates and/ or industries due to the ethical principles of the Ethical Policy. This may result in the Sub-Fund having a range of investments which are eligible for it to invest in that is narrower than would otherwise be the case, and this may in turn affect the Sub-Fund's performance. Where an investment is identified as no longer meeting the Ethical Policy, the Investment Manager will seek to sell the investment. The prices at which such an investment can be sold in these circumstances may be lower than the prices that might otherwise have been realised for the investment if such a sale was not required.

IT IS RECOMMENDED THAT PROSPECTIVE INVESTORS CONSULT THEIR OWN ADVISORS ON LEGAL, TAX AND FINANCIAL ISSUES THAT ARE RELEVANT FOR THEIR SPECIFIC SITUATION, AS THE INFORMATION HEREIN SHOULD BE REGARDED AS GENERAL INFORMATION. INVESTMENT IN THE SUB-FUND SHOULD BE REGARDED AS A LONG TERM INVESTMENT. THERE CAN BE NO GUARANTEE THAT THE INVESTMENT OBJECTIVE OF THE SUB-FUND SET OUT HEREIN WILL BE ACHIEVED.

THERE CAN BE NO GUARANTEE THAT THE INVESTMENT OBJECTIVE OF THE SUB-FUND SET OUT HEREIN WILL BE ACHIEVED.

POTENTIAL INVESTORS ARE EXPECTED TO BE AWARE OF THE RISKS OF INVESTING IN THE SUB-FUND AND ANY PERSON CONSIDERING AN INVESTMENT IN THE SUB-FUND MUST HAVE THE FINANCIAL SOPHISTICATION AND EXPERTISE TO EVALUATE ITS MERITS.

Pricing

The calculation of the NAV of the Sub-Fund and of the NAV per Share shall be effected by the Administrator at each Valuation Day on every Subscription Day and Redemption Day in such manner as is stated in the Prospectus under the section entitled "**Net Asset Value Calculation**". The NAV per Share will be available from the Administrator and will be published on the website of the Company.

Duration of the Sub-Fund

The Duration of the Sub-Fund is indefinite.

Fees Payable by the Sub-Fund

Investment Management Fee

The Company will pay the Investment Manager an Investment Management Fee of up to 2% per annum, calculated on the NAV at each Valuation Day. Such fee may vary depending on Share Class.

The Investment Management Fee will accrue at every Valuation Day and shall be payable quarterly in arrears.

The Investment Manager will be reimbursed for all properly incurred and approved out-of-pocket expenses.

The Founder Shares also carry the right to vote at general meetings of the Company but do not carry a right to participate in any dividends or other distributions of the Company or in the assets of the Company on a winding up (other than to the surplus, if any, that may remain after payment of all amounts due to creditors and holders of the Investor Shares).

Dividend Policy

General

It is intended that the Company will distribute dividends in respect of the Class B EUR Distributor Shares in such amounts and with such frequency as may be determined by the Directors in accordance with the Prospectus and this Offering Supplement. It is envisaged, but no guarantee is given, that most or all of the net income of the Sub-Fund will be declared on a six-monthly basis (each being an "Interim Period") ending as follows: 31st March and 30th September (each a "Dividend Cut-Off Date") and this in the form of interim dividends. At each annual general meeting, a final dividend may, if recommended by the Directors and approved by the Shareholders, also be paid.

Only those Shareholders listed on the Company's register of members at close of business on the relevant Dividend Cut-Off Date (or on the last Business Day immediately preceding Dividend Cut-Off Date if the said date does not fall on a Business Day) shall be entitled to receive the respective dividend payments for the relevant Interim Period. Payments shall be effected in the Base Currency unless a different arrangement has been agreed to by the Custodian.

Payment of a dividend will be made in the name of the Shareholder or, in the case of joint holders in the name of the first-named joint holder. Payment to the first-named joint holder shall be as effective a discharge to the Company, the Investment Manager and the Custodian as if such first-named joint holder had been a sole holder. Without prejudice to the foregoing, joint holders may request that dividends be apportioned amongst the joint holders in which case, and if accepted by the Company, the holders shall bear all extra costs in that regard.

Payments of dividends will be made through the direct crediting of the Shareholder's bank account.

The Sub-Fund will pay the Custodian or any other paying agent a fee to cover the operation of distribution of dividends. Please refer to the Section entitled "Fees Payable by the Sub-Fund" above for further details.

Where the relative direct credit is rejected for any reason outside the Company's control, the Company shall: (a) re-invest the proceeds of the direct credit, less any bank charges if applicable, in further Class B EUR Distributor Shares and in the name of the Shareholder(s) on the next Subscription Day following the date that notice of the rejection was received; (b) send a statement to the Shareholder reflecting the re-investment of the aforesaid dividend proceeds.

Any dividend payments which remain unclaimed after a period of twelve (12) years from the date of payment shall then be transferred to and become part of the Sub-Fund's assets and neither the payee, Shareholder nor their successor(s) in title shall have any right thereto other than as part of the NAV per Share.

Shareholders entitled to receive dividend payments will, on or after the payment date, be sent a Dividend Certificate which shall include details in respect of the income distributed including, if required by any applicable legislation, a statement of how much of the amount to which they are entitled represents any tax deducted in respect of that income.

All payments are subject to any pledge of the Class B EUR Distributor Shares duly constituted and notified to the Company as well as to any applicable fiscal laws and regulations - your attention is drawn to the section in the Prospectus entitled "Taxation" and to the part hereof entitled "Taxation".

All dividend payments shall be effected in accordance with the Licence Conditions or any other applicable MFSA requirements.

Allocation of Income

Pursuant to the Company's Memorandum and Articles, the income available for allocation in respect of the Class B EUR Distributor Shares shall be the sum recommended by the Directors which shall not be in excess of the income received or receivable by the Sub-Fund in respect of assets (whether in the form of dividends, interest or otherwise) during the relevant period less appropriate expenses in accordance with the Act and the Licence Conditions, nor in excess of the amount available for distribution in accordance with applicable laws and regulations.

In terms of the Licence Conditions, the amount available for allocation is to be calculated by taking the aggregate of the income property received or receivable by the Sub-Fund in respect of the Interim Period or Accounting Period and:

- i. including therein any income equalisation amount received by the Custodian on the Class B EUR Distributor Shares created during the relevant period, including any resulting from the final valuation;
- ii. adding the Investment Manager's, or the Company's, best estimate of any relief from tax on expenses properly payable out of income of the Sub-Fund in respect of the relevant period;
- iii. deducting the aggregate of all the Investment Manager's, the Custodian's and the Administrator's remuneration in respect of the Sub-Fund properly paid or payable in respect of the relevant period;
- iv. deducting the aggregate of the payments out of income property paid or payable in respect of the relevant period;
- v. deducting such provision for taxation as the Investment Manager, or the Company, after consulting the Auditors considers appropriate;

- vi. deducting the aggregate of those parts of the Redemption Proceeds of Class B EUR Distributor Shares redeemed during the relevant period (including any redeemed by relation to the final valuation) as were attributable to the addition of income property to the calculation of the Redemption Price including any income equalisation amount paid by the Custodian on redemption;
- vii. deducting (or disregarding) and carrying forward of any potential income, if the Custodian and the Investment Manager, or the Company, agree that, because adequate information is normally not available about how that income accrues, it ought generally not to be accounted for on an accrued basis;
- viii. deducting (or disregarding) and carrying forward of any potential income, if the Custodian and the Investment Manager, or the Company, agree that that income is not likely to be received by the Custodian until twelve (12) months after the income allocation date, provided the Auditors are satisfied that the Custodian has made and intends to continue to make all proper efforts to obtain its receipt; and
- ix. adjusting for the re-allocation of the expenses from the “income account” to the “capital account”. The Custodian, in consultation with the Investment Manager, or the Company, shall exercise reasonableness in effecting these re-allocations.

At the end of each relevant accounting period, the Custodian shall transfer the positive balance, if any, in the “income account” to an account to be known as the “distribution account”. If however, the average payment to Shareholders of the Sub-Fund by way of income during the relevant accounting period would amount to less than fifteen Euro (EUR15) or their equivalent, the Custodian may, acting on the advice of the Investment Manager or the Company, (a) carry the balance in “income account” forward to the next relevant accounting period (and to regard it as received at the start of that period), or (b) credit the income to the “capital account” in which case it will be represented in the NAV per Share.

The Directors may decide to distribute all or part of the balance in the “distribution account” and shall either directly or through the Investment Manager instruct the Custodian accordingly. In that case the Custodian shall carry the remaining balance in the “distribution account” forward to the next relevant accounting period.

On or before the relevant income allocation date, the Custodian shall allocate the available income to the Shareholders rateably in accordance with the number of Class B EUR Distributor Shares held by them on the Dividend Cut-Off Date.

Income Allocation Dates

Any income which stands to be allocated to the income account in respect of an Interim Period shall be so allocated by not later than two (2) months after the end of each Interim Period as specified in this Prospectus for the purposes of dividend distributions, and in respect of the Accounting Period, the allocation shall be made by not later than two (2) months after the end of the Accounting period.

Equalisation Account

The Offering Price of any Class B EUR Distributor Shares generally contains an element representing the accrued income earned by those Class B EUR Distributor Shares since the start of the relevant Interim Period. This means that investors buying Class B EUR Distributor Shares buy a percentage of net income, and the corresponding portion of the Offering Price (the equalisation payment) will be notionally credited by the Company to an equalisation account for the Sub-Fund.

The equalisation account will be maintained in order to ensure that equal amounts are distributed in respect of each Class B EUR Distributor Share notwithstanding different dates of issue.

When an equalisation payment has been effected, any subsequent dividends in relation to the relevant Class B EUR Distributor Shares shall include an amount corresponding to the aforesaid equalisation payments and paid out of the equalisation account. However, the said amount shall not be included as part of the dividend in the event that the Directors exercise their discretion (as described hereunder) not to consider equalisation when determining distributions.

The Redemption Price of any Class B EUR Distributor Shares will also include an equalisation payment in respect of the net income of the Sub-Fund since the start of the relevant Interim Period up to the date of redemption, and upon the redemption of any Class B EUR Distributor Shares based on that Redemption

Price, a sum equal to that part of the Redemption Price of a Class B EUR Distributor Share which reflects net income (if any) accrued up to its date of redemption will be deemed to be an equalisation charge and debited to the equalisation account.

In the absence of significant fluctuations between the redemption and issue of Class B EUR Distributor Shares, the Directors may choose not to consider equalisation when determining distributions to Shareholders or to pay to such Shareholders any excess of equalisation credits over debits. Any fluctuations between redemption and issue of shares that could have an effect of one per cent (1%) or more on the NAV per Share shall be considered significant.

Sub-Fund Expenses

The fees and expenses incurred in connection with the establishment of the Sub-Fund, the application for licensing of the Sub-Fund, the preparation and publication of the Offering Supplement and all legal costs and out of pocket expenses in relation thereto shall be borne by the Company.

☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It **promotes Environmental/Social (E/S) characteristics** and while it does not have as its objective a sustainable investment, it will have a minimum proportion of ____% of sustainable investments

☐ with a social objective

☒ It promotes E/S characteristics, but **will not make any sustainable investments**

What environmental and/or social characteristics are promoted by this financial product?

The Sub-Fund invests in securities issued by corporates or governments that satisfy the (ethical) selection approach defined in the Ethical Policy. It promotes E, S and G characteristics by selecting securities from a universe of issues by corporates or governments through:

- excluding issues by corporates and governments which do not pass the positive evaluation screening test on E, S and G components by the investment manager (step 2 of the selection process following the negative screening detailed below);
- limiting exposure to certain business activities, by excluding corporates deriving significant revenues (>10%) from coal mining, tobacco production and distribution, military equipment and firearms, life termination services or products, human embryonic stem cell research, gambling operations and products, alcohol production and distribution, and pornography and adult entertainment services; and
- excluding issues by governments which do not pass the (negative) screening tests on civil and political rights.

For corporate issues: The investment manager uses a best-in-class approach to select within each industry the corporates that have the best overall ESG score compared to their peers within the industry. For each Environmental (E), Social (S) and Governance (G) pillar, several indicators are used (as detailed below). The weight of each ESG pillar is determined by its materiality within the industry of the corporation analysed.

For government issues: Issuing countries are classified according to the overall ESG score. The score is derived by aggregating the scores for each Environmental (E), Social (S) and Governance (G) pillar and (issues by) governments are included in the universe if they meet or exceed the minimum threshold.

The investment manager will, after undertaking this analysis, take steps to either include or exclude governments or corporates from the universe which is updated at least on an annual basis. Further monitoring continues to be made on a periodical basis, to confirm that the governments and corporates in the universe continue to adhere to the above criteria.

The Sub-Fund may also invest in other funds provided that any underlying fund falls under Article 8 or 9 of the SFDR.

The Sub-Fund is actively managed by the investment manager. No reference benchmark is used for the purposes of attaining the E, S and G characteristics.

● ***What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?***

The Sub-Fund promotes all E, S and G pillars. The investment manager pursues a best-in-class approach, considering the following exclusions.

Companies involved in the following business activities are excluded (if turnover >10% of total turnover):

- coal mining, tobacco production and distribution, military equipment and firearms, life termination services or products, human embryonic stem cell research, gambling operations and products, alcohol production and distribution, and pornography and adult entertainment services.

Companies are assessed on their ESG performance ("positive evaluation") which is measured based on the following indicators:

- Environmental pillar: environmental strategy, accidental pollution, green products, biodiversity, water, energy, atmospheric emissions, waste, local pollution, transportation, use and disposal of products, product safety, and environmental standards in the supply chain.
- Social pillar: information to customers, customer relations, supplier relations, social standards in the supply chain, fundamental human rights, fundamental labour rights, non-discrimination, child and forced labour, social dialogue, employee participation, reorganisation, career management, working hours, remuneration, social and economic development, societal impact of products/services and general interest causes.
- Governance pillar: board of directors, audit and internal controls, fair shareholder treatment, executive remuneration, anti-competition, anti-corruption, lobbying, career management, fundamental labour rights, health and safety, and social and economic development.

Compliance with the exclusion criteria and positive evaluation is conducted by the investment manager through the use of an independent ESG data provider.

For governments, countries with insufficient score (exclusion if "Partially Free" or "Restrained") according to the Freedom House (www.freedomhouse.org) are excluded. The investment manager shall then assess the ESG performance based on the Environmental Performance Index (<http://epi.yale.edu>) for the E pillar, the

Human Development Index (<http://hdr.undp.org>) for the S pillar, and the Worldwide Governance Indicators (www.govindicators.org) for the G pillar.

The above applies to direct investment in issuers.

The Sub-Fund may invest in other funds provided that any underlying fund falls under Article 8 or 9 of the SFDR.

- ***What are the objectives of the sustainable investments that the financial product partially intends to make and how does the sustainable investment contribute to such objectives?***

Not applicable. The Sub-Fund does not have a sustainable investment objective and does not make sustainable investments.

- ***How do the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective?***

The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

The binding elements to the investment strategy consist of the following elements:

The binding elements are monitored on an ongoing basis. The investment manager is required to develop a strategy to divest exposure to corporates or governments which deviate from the Ethical Policy within a reasonable timeframe.

The Sub-Fund may invest in other funds if these fall under Article 8 or 9 of the SFDR.

● ***What is the committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy?***

The Sub-Fund does not commit to a minimum rate to reduce the scope of investments prior to the application of the investment strategy.

● ***What is the policy to assess good governance practices of the investee companies?***

Good governance practices of investee companies are addressed at various stages of the security selection process for inclusion in the universe. Companies are screened for good governance with respect to sound management structures,

- board of directors
- fair shareholder treatment
- executive remuneration
- anti-competition
- anti-corruption

- career management
- fundamental labour rights
